Hi Lynn,

Just to keep you in the loop. I sent a request to Ed and Mary on behalf of the R5 drinking water branch about the need for communication material regarding an Ohio State PFAS study that was produced in collaboration with ORD. Anything you can do to get this on the appropriate radar screens (if it's not there already) would be very appreciated.

Thanks,

Carole

Hi Ed and Mary,

Region 5 understands that a OSU PFAS Gen X study that was produced with some EPA assistance (see power points) will be released before Christmas. R5 drinking water branch anticipates there will be significant public interest and that the Region will be contacted. Anything you can do to make sure that the right people are in the loop and HQ communication materials reach us in time would be very appreciated. This is a very short timeline.

Thanks for your help,

Carole

Hi Carol,

I attached a presentation I believe Andy Lindstrom gave on November 21. Slide 8 has the GenX data and map. I will see if I can find anything else.

Thank you for talking to Ed and Mary. I appreciate it.

Have a good afternoon,
Jenny
